

LASER TECH - FIBER LINE R/S

Soitaab's new range of fiber laser machines offers the best technology for versatility, accuracy, and high performance cutting. High productivity and reliability on a variety of materials and thicknesses. Cutting Quality at the highest level with simple and complete process control through our efficient and intuitive parameter driven CNC interface.

The Lasertech family is comprised of two basic machine models, the Fiberline S and Fiberline R.

FIBERLINE R

The Fiberline R brings together the combination of dynamic accuracy and high performaces apllied on smaller machine formats. Thanks to the innovative designs and technological solution adopted, it is now possible to achieve the same leels of high speed, precision and performances on smaller machines whit the highest power Fiber laser available in the market place.

TECHNICAL FEATURES

| Working Area | 1,500 x 3,000 mm – 5' x 10' |
|--|--|
| volking / lieu | 2,000 x 4,000 mm – 6-1/2' x 13' |
| | 2,000 x 6,000 mm – 6-1/2' x 20' |
| | Others upon request |
| Machine Dimensions incl. Cabin and Changing Pallet | 3,000 x 8,850 mm - 10' x 29' |
| | 3,500 x 9,850 mm – 11-1/2' x 32' |
| | 3,500 x 11,850 mm – 11-1/2' x 39' |
| | Other upon request |
| Height | 2,262 mm – 7-1/2' |
| Maximum Travel Speed | 85 m/min (X, Y, U) - 280'/min |
| · | 60 m/min (Z) - 197'/min |
| Acceleration | 1.5g - 5-1/2'/s ² |
| Z Axis Vertical Stroke | 160 mm - 6" |
| Accuracy | Position = 0.05 mm repeatability = 0.03 mm |
| Power Laser | 2-3-4-6-8-10-12 kW |
| Cutting Thickness | Carbon Steel = 0.04" to 1-3/16" |
| | Stainless Steel = 1 to 1" |
| | Aluminum = 0.04" to 1" |

FIBERLINE S

The Fibeline S is dedicated to wider format applications and boasts of high dynamic performance and accuracy. The unsurpassed strength of the machine structure, together with precise and accurate solutions for the mechanical motion control, permit the Fiberline S to reach the fastest speeds while maintaining the highest precision in both machine movement and cutting, even on these larger machine sizes.

TECHNICAL FEATURES

| Working Area | 2,500 x 6,000 mm – 8' x 20' |
|--|--|
| 3 | 3,000 x 6,000 mm – 11-1/2' x 20' |
| | 3,000 x 12,000 mm – 11-1/2' x 40' |
| | 3,000 x 24,000 mm – 11-1/2' x 80' |
| | Others upon request |
| Machine Dimensions incl. Cabin and Changing Pallet | 3,000 x 8,850 mm - 10' x 29' |
| | 3,500 x 9,850 mm – 11-1/2' x 32' |
| | 3,500 x 11,850 mm – 11-1/2' x 39' |
| | Other upon request |
| Without* Changing Pallet | 4,500 x 30,000 mm - 15' x 98-1/2' |
| Height | 2,400 mm – 8' |
| Maximum Travel Speed | 220 m/min |
| Acceleration | 1 g |
| Z Axis Vertical Stroke | 160 mm - 6" (Vertical Head) |
| | 250 mm - 10" (Bevel Head) |
| Accuracy | Position = 0.05 mm repeatability = 0.04 mm |
| Power Laser | 2-3-4-6-8-10-12 kW |
| Cutting Thickness | Carbon Steel = 0.04" to 1-3/16" |
| | Stainless Steel = 1 to 1" |
| | Aluminum = 0.04" to 1" |
