

PLASMA PRO

Plasma PRO is the plug & play version of the Plasmatech family. Versatile and economic, it represents the most advantageous solution for many cutting applications. Machine reliability in a compact design with a strong structure. High level performance with next generation electronics and CNC.

AVG Anti collision, Anti UV, Diode Laser. Touch and Go Homico ideal for initial placement on thin and medium thickness sheets.

- Dual drive brushless motors
- Windows for smoke extraction channels
- Backspace for power supply accommodation
- Clean and compact designn

GENERATORS POWERMAX: PWM 45 - PWM 65 - PWM 85 - PWM 105 - PWM 125

TECHNICAL FEATURES

Working Area	1500 x 3000mm (5 x 10FT) 2000 x 4000mm (6.5 x 13FT)
Plasma Power Supply	da 45 a 125A da 45 a 125A
Displacement Speed	20.000m/min (60FT/min)
Overall Dimensions	2132 x 4329mm (6.5 x 14.1FT) 2460 x 5325mm (8 x 17.5FT)
CNC, Motor and Drives	15" Windows Touch, Brushless Digital, powered by Schneider Electric
Cutting Thickness	Up to 20mm (5.08")
Marking System	Pen Marking
Available Working Tables	Downdraft Water Table
